### PLANTATION

## Students plant garden at Central Park Elementary

Tomatoes, peppers, onions and basil were among the vegetables and herbs planted.

Andrew Garnett, CEO of Special Needs Group, helps Central Park Elementary kindergartners plant an herb and vegetable garden at their school. Garnett, who is also a parent at the school, stepped in and donated \$500 for the garden after the school was denied a grant.

Emily Ramirez, a parent volunteer at Central Park Elementary, helps kindergartners Musa Khan, 6, and Himaghna Singh, 5, plant.

Garnett helps with the planting.
